**Make sure you use the exact spelling of the first name and last name you entered for your camper(s) when you registered your account.**

Please note that in order for family and friends to email your camper they must be invited by you to the eCamp site. Once your account is setup, click on the invite button. Fill out the online form and a notification email will be sent to your invitees. Instructions are emailed to your invitees to login and acknowledge the invitation.
